Pozzi-Ginori è storia dell'arte e del design italiani della porcellana da bagno. Le sue origini risalgono al 1735, quando il marchese Carlo Ginori dette inizio, fra i primi in Europa, alla creazione di splendidi manufatti in quel prezioso tipo di ceramica che allora era chiamato "l'oro bianco". La sua Manifattura di Doccia, a nord ovest di Firenze, divenne presto fra le massime d'Europa. Nel tempo, con la Ginori si fusero le altre manifatture ceramiche progressivamente in Italia: prima quella di Giulio Richard, poi la Società Ceramica Italiana di Laveno, quindi la Pozzi. Ognuna di queste, prima da sola, poi integrandosi alle altre, ha segnato le varie tappe della sapienza e della tecnologia italiane nella progettazione e nella realizzazione di prodotti sanitari in porcellana. Con l'iniziare e poi l'affermarsi dei metodi e della prassi dell'industrial design, fin dal 1918 grandi designer hanno contribuito a scandire tali tappe: Giò Ponti, Guido Andlovitz, Studio Nizzoli, Le Corbusier, Giovanni Gariboldi, Antonia Campi, Gae Aulenti, Paolo Tilche, Matteo Thun e Antonio Citterio. Pozzi-Ginori entra in Sanitec nel 1993, e continua la sua grande tradizione con immutata costante capacità innovativa. Dal 2015 Pozzi-Ginori fa parte del Gruppo Geberit. Il Gruppo Geberit opera a livello globale ed è uno dei leader europei nel settore dei prodotti idrosanitari. Geberit opera come gruppo integrato con una forte presenza locale in molti paesi europei, fornendo un valore aggiunto unico quando si tratta di tecnologia e prodotti idrosanitari e ceramiche bagno.

Pozzi-Ginori represented the history of Italian art and design in bathroom ceramics. Its origins date to 1735, when Marquess Carlo Ginori was one of the first people in Europe to begin manufacturing splendid object in a precious grade of ceramics they used to call "white gold". His Doccia Factory northwest of Florence quickly became one of the largest in Europe. Over time, Ginori merged with other ceramic manufacturers that progressively sprang up in Italy: first, there was Giulio Richard, then the Laveno Italian Ceramic Company, and finally Pozzi. Each manufacturer began on its own, then merging with the other, as they established milestone in Italian technology and expertise in the design and creation of bathroom ceramic products. As the methods and practices of industrial design originated and then asserted themselves, great designers have helped articulate various stages since 1918: Giò Ponti, Guido Andlovitz, Studio Nizzoli, Le Corbusier, Giovanni Gariboldi, Antonia Campi, Gae Aulenti, Paolo Tilche, Matteo Thun and Antonio Citterio. After entering the Sanitec Group in 1993, Pozzi-Ginori has continued this grand tradition with its unchanging, constant copacity to innovate. From 2015 Pozzi-Ginori is part of the Geberit Group. The globally operating Geberit Group is a European leader in the field of sanitary products. Geberit operates as an integrated group with a very strong local presence in most European countries, providing unique added value when it comes to sanitary technology and bathroom ceramics.
