CALEIDOS

Rilassati con la cromoterapia, immergiti nei colori riflessi dall'effetto pioggia o dai getti nebulizzati: la doccia emozionale rilassa la mente e la rigenera dallo stress, i getti regolabili distendono il corpo e lo ritemprano dalla fatica. La versatilità d'installazione, abbinabile con soffioni a parete e doccino su asta, trasforma poi un'esperienza esclusiva in una routine quotidiana di benessere assoluto.
