On the cover: Tendenza model door, Platea group, P3 design, white lacquered

Passione *Passion*

Per fare qualcosa veramente bene non basta scegliere i prodotti migliori e utilizzare le tecnologie più avanzate. Ci vuole l'impegno giornaliero delle persone. Tecnici, progettisti, ingegneri e artigiani lavorano insieme per dare il meglio. Dietro ogni porta ci sono osservazione e sensibilità. Ci sono idee, creatività, ingegno, passione. C'è attenzione e cura dei particolari. Solo in questo modo si riesce a creare qualcosa che trasmetta personalità e carattere, qualcosa che si adatta perfettamente alla tua casa.

Choosing the best products and using the most advanced technology isn't enough when making something of the highest quality. It takes the daily commitment of technicians, designers, engineers and craftsmen working together to produce the best. Behind every door there is observation and sensitivity. There are ideas, creativity, ingeniousness, passion. There is care and attention to detail. Only in this way can you create something that conveys personality and character, something that fits perfectly into your home.

Design Design

I disegni stilizzati, l'incisione sottile, le linee essenziali insieme alla scelta dei colori sono elementi che creano un ambiente moderno con un tocco di carattere e personalità.

Stylized designs, subtle incisions, simple lines, along with the choice of colors are elements that create a modern setting with a touch of character and personality.

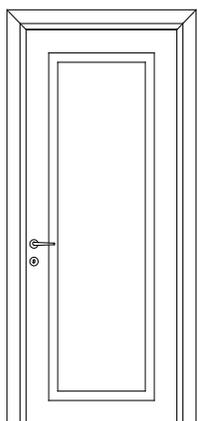

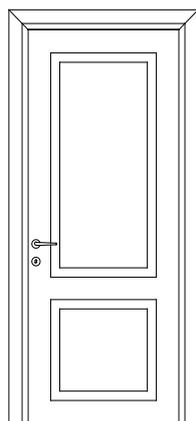

Versioni gruppo **Platea** group designs

Un perfetto connubio tra linea classica e moderna. Una rivisitazione attraverso un differente tipo di incisione, larga e piatta, che riproduce forme intramontabili con proporzioni diverse.

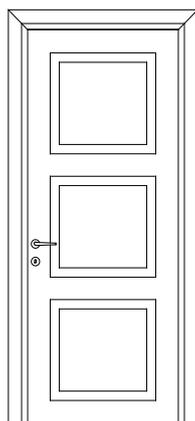

A perfect combination of classic and modern. An evocation of the past through a different type of engraving, wide and flat reproducing timeless designs with different proportions.
