SELEZIONE NATURALE

Tutto scorre. I gusti evolvono, la scienza avanza. Nell' inarrestabile mutamento, è sempre il tempo a dettare le regole. Non tutti reggono il passo. Per non perderlo, apparenza e sostanza devono necessariamente proporre nuovi equilibri, indagando combinazioni. Resiste solo chi ha riflessi pronti. Ad hoc risponde alla sfida con sicurezza, ingegno, flessibilità e fantasia, interpretando lo spazio abitativo in un sottile gioco di infinite variabili. Il corpo scaldante scopre una nuova dimensione nel design. L'evoluzione si esprime attraverso forme e volumi apparentemente seducenti, sostanzialmente avanzati. C'è chi subisce il cambiamento e chi lo cavalca. Si può restare immobili, fissi nelle proprie incrollabili certezze, o lasciarsi coinvolgere con la consapevolezza che chi si ferma ha perso il suo tempo. Il futuro è innovazione. Partendo da questa intuizione, Ad hoc sceglie la strada del pensiero e recupera nuovo spazio al senso, alla visione, all'allegria, all'identità.

NATURAL SELECTION

Everything flows. Taste evolves, science moves forward. Through unrestrainable changes, it's always time to set the rules. Few can keep pace with the changes. To avoid being left behind, appearance and substance must necessarily suggest new balances, investigating combinations. Only those who have quick reflexes hold out. Ad hoc faces the challenge with confidence, intelligence, flexibility and fantasy, interpreting the living space as a subtle game of infinite variables. Heating bodies discover a new design dimensions. Evolution expresses itself through shapes and volumes, apparently seducing, substantially advanced. Some undergo changes, some rule it. Future is innovation. Starting from this intuition, Ad hoc chooses the path of thought and regains new space to sense, vision, fun, identity.

LA SÉLECTION NATURELLE

Tout coule. Les goûts évoluent, la science progresse. Dans ce monde en constant mouvement, il est toujours temps d'établir les règles. Peu de gens peuvent suivre le rhthme. Afin de ne pas regresser, l'apparence et la substance doivent nécessairement apporter de nouveaux équilibres, générer de nouvelles combinaisons. Seuls survivent, ceux qui sont réactifs.
AD HOC relève le défi avec confiance, intelligence souplesse imagination et l'interprétation de l'espace de vie dans un subtil jeu de variables infinies. Le corps de chauffe trouve une nouvelle dimension dans la conception. Le développement trouve son expression à travers des formes et des volumes qui semblent être séduisants et très avant gardistes. Certaines personnes subissent le changement, dautres le créent. Vous pouvez rester immobile fixé dans une certitude inébranlable, ou vous impliquer avec la conscience que celui qui hésite a perdu son temps. L'avenir est dans l'innovation. A partir de cette intuition AD HOC choisit la voie de la pensée, récupère une identité; une vision futuriste et un nouvel espace de sens.

NATÜRLICHE SELEKTION

Alles fließt. Der Geschmack entwickelt sich, die Wissenschaft schreitet voran. In der unermüdlichen Veränderung ist es immer wieder an der Zeit, die Regeln festzulegen. Nur wenige können dabei mithalten. Um nicht zurück zu bleiben, müssen Aussehen und Substanz unbedingt neues Gleichgewicht bekommen, neue Kombinationen versucht werden. Nur wer schnelle Reflexe hat, hält durch. Ad-hoc antwortet auf die Herausforderung mit Selbstvertrauen, Intelligenz, Flexibilität und Phantasie, indem der Wohnraum als subtiles Spiel der unendlichen Variablen interpretiert wird. Heizkörper entdecken eine neue Dimension im Design. Die Entwicklung drückt sich durch Formen und Volumina aus, die attraktiv und wesentlich erweitert sind. Manche machen eine Veränderung durch, manche beherrschen die Veränderung.
Die Zukunft ist Innovation. Ausgehend von dieser Einsicht, wählt Ad-hoc den Weg des Denkens und erlangt wieder neuen Raum für das Gefühl, die Vision, das Vergnügen, die Identität.

SELECCIÓN NATURAL

Todo fluye. Los gustos evolucionan, la ciencia avanza. El "cambio incesante del tiempo, establece las reglas. Pocos pueden mantener el ritmo. A fin de no perder, apariencia y sustancia, deben necesariamente traer nuevos equilibrios investigando combinaciones para sólo aquellos que tienen reflejos rápidos. Ad hoc, responde al reto con confianza, inteligencia, flexibilidad y la imaginación. La interpretación del espacio vital en un sutil juego de infinitas combinaciones. El cuerpo de calefacción descubre una nueva dimensión en el diseño. El desarrollo se expresa a través de formas y volúmenes; atractivo y avanzado. Algunas personas se quedan paradas fjos en una certeza inamobible, otros en cambio avnazan involucrándose en el conocimiento. El futuro es la innovación. A partir de esta intuición, Ad hoc elige el camino del pensamiento y recupera un nuevo espacio al sentido, la visión, la identidad.

ЕСТЕСТВЕННЫЙ ОТБОР

Все течет. Вкусы эволюционируют, наука развивается. В безудержном изменении, время устанавливает правила. Не все выдерживают темп. И чтобы его не потерять, внешний вид и содержание обязательно должны предлагать новые равновесия, исследуя различные сочетания. Побеждает только тот, у кого быстрая реакция. Ad hoc делает вызов уверенности, интеллекту, гибкости и фантазии, превращая жизненное пространство в тонкую игру бесконечных величин. Радиаторы открывают новое измерение в дизайне. Эволюция выражается через формы и объемы, более соблазнительные, существенно продвинутые. Есть те, кто не выдерживает эти изменения и те, кто ими управляет. Можно оставаться неподвижными, зафиксированными в своей непоколебимой уверенностью, или идти вперед, осознавая, что тот, кто остановился, потерял время. Будущие - это инновации. Начиная с этого видения, ad hoc выбирает путь мысли и извлекая новое пространство для смысла, видения, веселья, личности.

COLLEZIONE FARNESINA DESIGN

Frutto di un innovativo laboratorio di avanguardia creativa e continua sperimentazione tecnologica, Ad Hoc risponde alle necessità moderne con efficaci intuizioni future. Capace di esaltare l'estetica ambientale con scelte formali originali e distintive, ha ottenuto nel corso degli anni importanti riconoscimenti. Nel 2004 e 2005, i modelli Neo e Ciussai, sono stati selezionati per la raccolta ADI DESIGN INDEX, annuario che raccoglie i migliori prodotti del design nazionale, conquistando il favore della giuria. Lo stesso Ciussai, sostituendo ai tradizionali schemi formali interessanti suggestioni creative, ha ottenuto la Segnalazione Compasso d'Oro 2008, per la XXI Edizione del Premio Compasso D'Oro ADI, ambitissima da designer e aziende di tutto il mondo. Ed ancora, l'anno successivo, sarà premiato "miglior apparecchio domestico del mondo" per i Design Awards dalla illustre rivista inglese WALLPAPER*, passando per esposizioni quali il MADE IN ITALY & ITALY IN MADE, entrando nella Collezione Storica del premio Compasso d'Oro, dichiarata patrimonio culturale nazionale, che include pezzi rari e unici e che si colloca tra le più importanti raccolte di Design industriale al mondo, fino ad approdare alla mostra TOTAL RAD presso il, MAD, Museum Art and Design di New York, insieme a Makura, Qualcosadielegante e Block. L'interesse per Ciussai continua con l'esposizione alla mostra "L'Oro del Design Italiano", con tappe a Venaria Teale (To), a San Benedetto del Tronto (Ap) e a Roma; da Luglio 2009 Ciussai fa parte della Collezione Farnesina Design (Roma - Villa Madama), un progetto-mostra che raccoglie oggetti simbolo made in Italy. Anche la valenza contemporanea di Block risulterà vincente. Il modello ottiene il premio DESIGN PLUS 2007, assegnato dal German Design Council, ai design più innovativi e contemporaneamente ecocompatibili, e nel 2008 verrà segnalato al DESIGNPREIS, premio ufficiale della Repubblica Tedesca. Altre realizzazioni quali MOTUS e NEWUP, si segnalano con successo a rassegne e concorsi come GRANDESIGN-DESIGN ETICO 2008, completando un percorso ricco di soddisfazioni. Il modella TIKI è stato segnalato al DESIGN PLUS 2011 insieme ad altre realizzazione di punta del sesign italiano.

Fruit of an innovative laboratory of creative vanguard and continued technological experimentation, Ad hoc answers to the modern needs with effective future intuitions. Able to exalt the environmental aesthetic with distinctive and formal choices, it has obtained in the course of the years important acknowledgments. In 2004 and 2005, the models Neo and Ciussai, have been selected for collection ADI DESIGN INDEX, yearbook that collects the best products of the national design, conquering the favour of the jury. The same Ciussai model, which replaces traditional outlines presenting interesting creative suggestions, has obtained the Signalling Compasso d'Oro 2008, for XXI the Edition of the Prize Compasso D' Oro ADI, scope from designer and companies throughout the world. The following year the Ciussai received "best domestic appliance in the world" from the Designs Awards of illustrious English magazine WALLPAPER. It also toured in shows such as MADE IN ITALY & ITALY IN MADE, entering in the Historical Collection of the Compasso d'Oro prize, declared national cultural patrimony, that includes rare and unique pieces and that places between the more important collections than industrial Design to the world. Lastly it was exhibited at TOTALLY RAD at the Museum Art and Design (MAD) in New York, together with Makura, Qualcosadielegante and Block. Ciussai was also exhibited at "the Gold of the Italian Design", with stages in Venaria Teale (To), San Benedetto del Tronto (AP) and Rome. In July 2009 Ciussai became part of the Farnesina Collection Design (Rome - Villa Madama), a showroom that collects objects symbolising Italian design. The contemporary design of Block is also a winner. The model obtained the prize DESIGN PLUS 2007, assigned by the German Council Design, to the more innovative designs and at the same time eco-compatibles. In 2008 it received the DESIGNPREIS, official prize of the German Republic. Some other creations, such as Motus and Newup, have had great recognition in shows and competitions like at the Grand Design-Design Etico 2008. The model has been reported to TIKI DESIGN PLUS 2011 along with other construction of the tip of the Italian sesign.*

AD HOC est le fruit d'une créativité avant gardiste et innovante, et le résultat du laboratoire d'expérimentation technologique continue. Capable d'améliorer l'environnement esthétique original et distinctif, choix formels, AD HOC a remporté des prix importants au fil des années. En 2004 et 2005, les modèles NEO et CIUSSAI ont remporté les faveurs du jury et ont été sélectionnés pour ADI Design Index Collection, annuaire qui rassemble les meilleurs produits de conception nationale, Le même CIUSSAI remplaçant les modèles traditionnels et présentant des suggestions créatives intéressantes a remporté le GOLDEN COMPASS RAPPORT en 2008 pour la XXIème édition du Prix ADI GOLDEN COMPASS, très convoité par les designers et industriels du monde entier. L'an prochain, le CIUSSAI se verra décerner le prix du Design pour l'appraeil domestique le plus connu dans le monde" par le celèbre magazine Britannique WALL PAPER et par le biais d'autres exposions telles que le MADE IN ITALY et ITALIE IN MADE, se positionnant dans la collection historique du prix COMPASS OR, déclaré patrimoine culturel national le plaçant dans les pièces rares et uniques parmi les plus importantes collections de Design et modèles industriels dans le monde, Il a été présenté au musée de l'art et du désign à New York. Le CIUSSAI, le MAKURA, le QUALCOSADIELEGANTE ainsi que le BLOCK ont été exposés au "GOLD OF ITALIAN DESIGN" également à Vénaria Teale (To), San Benedetto del Tronto (AP) et à Rome En juillet 2009 le CIUSSAI a fait parti de la Collection Farnesia à la Villa Madama à Rome, Même succès pour le modèle BLOCK qui a reçu le prix du Design Plus Award 2007 décerné par le Conseil Allemand de Design, pour sa conception et son respect de l'environnement. D'autres porjets tels que MOTUS et NEWUP, seront mis en avant dans des expositions et compétitions telles que GRAND DESIGN DE DEONTOLOGIE 2008. Le TIKKI a reçu le prix en 2011 du DESIGN PLUS avec d'autres créations de type Design Italien.

*Als Ergebnis von innovativen und kreativen Versuchen und kontinuierlichen technologischen Experimenten begegnet Ad Hoc den modernen Bedürfnissen mit erfolgreichen künftigen Eingebungen. Fähig, die ästhetische Umgebung mit originellen und unverwechselbaren Formen entscheidend zu verbessern, gewann ADhoc im Laufe der Jahre bedeutende Auszeichnungen. 2004 und 2005 gewannen die Modelle Neo und CIUSSAI die Gunst der Jury und wurden für die ADI DESIGN INDEX ausgewählt, ein Jahrbuch, welches die besten Produkte des nationalen Designs zeigt. Ebenso gewann CIUSSAI, der anstelle der traditionellen formalen Muster interessante kreative Anregungen gibt, den GOLDENEN KOMPASS 2008, für die 21. Ausgabe des ADI Golden Compass Award, bei Designern und Unternehmen auf der ganzen Welt begehrt. Im Jahr darauf gewann Ciussai den Designpreis "bestes Haushaltsgerät der Welt" des berühmten britischen Magazins Wallpaper *. Er erschien auch in Ausstellungen wie MADE IN ITALY & ITALY IN MADE und kam dadurch in die historische Sammlung des COMPASSO d´ORO, in dem erklärte nationale Schätze, darunter seltene und einzigartige Stücke geführt werden und die zu den bedeutendsten Sammlungen von Industrie-Design weltweit zählt. Zuletzt wurde Ciussai im Rahmen von TOTALLY RAD im Museum Art and Design (MAD) in New York ausgestellt, zusammen mit den Modellen Makura, Qualcosadielegante und Block. Ciussai wurde ebenso im Rahmen der Ausstellung GRANDESIGN-DESIGN ETICO 2008 gezeigt, mit Stationen in Venaria Teale (To), San Benedetto del Tronto (Ap) und in Rom. Im Juli 2009 war Ciussai Teil der Kollektion Farnesina Design (Rom - Villa Madama), einer Ausstellung, die Objekte mit italienischem Design sammelt. Auch das zeitgenössische Design des Block ist erfolgreich. Das Modell wurde mit dem Design Plus Award 2007 des deutschen Rats für Formgebung ausgezeichnet, weil es sowohl innovatives Design, als auch Umweltfreundlichkeit in sich vereint. 2008 erhielt Block den Designpreis, die offizielle Auszeichnung der Bundesrepublik Deutschland. Andere Kreationen wie MOTUS und NEWUP hatten ebenfalls ihre großen Auftritte in Shows und Wettbewerben wie GRANDESIGN-DESIGN ETHIK 2008. Das Modell TIKI gewann zuletzt den Preis DESIGN PLUS 2011 und wurde damit zusammen mit anderen Produkten an die Spitze des italienischen Designs erhoben.*

*Результат инновационной лаборатории творческого авангарда и непрерывного технологического эксперимента, ad hoc отвечает современной необходимости созерцая в будущее. Способный превозносить эстетику окружающей среды при помощи оригинальных решений, он получал на протяжении многих лет важные награды. в 2004 и 2005 годах модели neo и CIUSSAI, были отмечены на ADI DESIGN INDEX, который ежегодно собирает самые лучшие изделия национального дизайна, завоевав расположение жюри. Тот же CIUSSAI, изменяя традиционные формальные схемы интересными творческими предложениями, получил знак золотого компаса 2008, на 21-ом награждении премией Золотого компаса, желаемого дизайнерами и компаниями по всему миру. И снова в следующем году, был награжден как «Лучшее отечественное изделие в мире» в области дизайна (design awards) известным британским журналом wallpaper *, пройдя через таких выставки как MADE IN ITALY & ITALY IN MADE, входя в историческую коллекцию премии Золотой компас, объявленной национально-культурным наследием, включая в себя редкие и уникальные предметы, это одина из самых важных коллекций промышленного дизайна в мире, посетив ряд выставок таких как: total rad (MAD), художественный музей арта и дизайна в Нью-Йорке, наряду с Макура, somethingofelegant и block. Интерес к CIUSSAI продолжается на выставке "Золото итальянского дизайна", в Венарии Теале, в Сан-Бенедетто-дель-Тронто и Риме; с июля 2009 CIUSSAI является частью коллекции Фарнезина дизайн (Рим - Villa Madama), проект-шоу который собирает предметы символизирующие Сделано в Италии. Так же La valenza одновременно с block оказывается победителем. Модель получает приз DESIGN PLUS 2007, присуждаемой немецким дизайнерским советом (german design council), как более инновационная разработка и в то же время экологически безопасная, и в 2008 году была награждена Designpreis, официальной премией немецкой республики. Другие наши изделия такие как MOTUS и newup, были отмечены с большим успехом в показах и конкурсах, таких как GRANDESIGN - DESIGN ETICO 2008 году, завершив полный путь полный побед. Модель tiki была отмечена design plus 2011 вместе с другими реализациями итальянского дизайна.*

NUOVA FINITURA SENZA CROMO
NEW CHROME FREE FINISH

GREENHEATER, IL PRINCIPIO SOSTENIBILE DELLA RESPONSABILITÁ
GREENHEATER, SUSTAINABLE PRINCIPLE OF RESPONSIBILITY
GREENHEATER, PRINCIPE DU DEVELOPPEMENT
GREENHEATER, ZUKUNFTSFÄHIGER GRUNDSATZ DER NACHHALTIGEN VERANTWORTUNG
GREENHEATER EL PRINCIPIO DE RESPONSABILIDAD SOSTENIBLE

AD HOC lancia nuove posizioni progettuali e processi di lavorazione che favoriscono la natura, valorizzando il ciclo di vita dei prodotti e creando una nuova finitura di metallizzazione che non utilizza il cromo, sostanza difficilmente smaltibile, ma che usa particolari lavorazioni di pulitura e brillantamento dell'alluminio estruso. AD HOC greenheater, innovazione ed ecosostenibilita in chiave italiana: ambiente, stile e funzionalita si coniugano solo ripensando e innovando i processi di produzione e inventando nuove tecnologie e nuovi prodotti. Produrre oggetti sostenibili significa tutelare la natura:
- utilizzando materiali riciclati e riciclabili
- riducendo i costi energetici in fase di produzione e smaltimento
- annullando i processi ed i trattamenti inquinanti
- scegliendo sobrieta formale e piщ alte prestazioni caloriche
- migliorando il lavoro degli installatori con materiali piщ leggeri.

Greenheater, sustainable principle of responsibility AD HOC promotes new projecting positions and working processes that favor nature, valuing the cycle of life of the products and creating one new metalization finish that does not use chromium, difficultly disposable substance, but that it uses particular works of cleaning and polishing of the extruded aluminum. AD HOC greenheater, innovation and ecosustainability in italian key: atmosphere, style and functionalities are conjugated only rethinking and innovating the production processes and inventing new technologies and new products. To produce sustainable objects means to guard nature:
- using recycled and recuclable materials
- reducing the energetic costs in phase of production and disposal
- cancelling polluting processes and treatments
- choosing formal sobriety and higher heating performances
- improving installers' job with lighter materials.

Greenheater, principe du developpement le projet AD HOC lance de nouveaux procйdйs de fabrication qui prйservent la nature, amйliorent le cycle de vie du poduit et crйent une nouvelle finition de placage qui n'utilise pas de chrome, substance qui s'йlimine difficilement, mais utilisent un traitement spйcial pour le nettoyage et la brillance de l'aluminium extrudй. AD HOC greenheater, se rйsume dans l'innovation et la durabilitй, du style italien, ensemble ils innovent dans les processus de production grace aux nouvelles technologies et aux nouveaux produits. Les points forts du developpement durable:
- utilisation de matйriaux recyclйs et recyclables
- rйduction des coыts йnergйtiques dans la production et l'йlimination
- elimination des procйdйs et traitements polluants
- choix de la sobriйtй et performance calorique plus formelle
- amйlioration du travail des installateurs avec des matйriaux plus lйgers.

Greenheater, zukunftsfähiger Grundsatz der nachhaltigen Verantwortung. AD HOC lanciert neue Positionen und Prozesse, die die Natur unterstützen und der Verbesserung des Produkt-Lebenszyklus dienen. Dabei wird eine neue Oberflächenveredelung geschaffen, die kein Chrom (eine Substanz, die nur schwer zu entsorgen ist) enthält. AD HOC dagegen nutzt einen Verarbeitungsprozess, bei dem das extrudierte Aluminium durch spezielle Reinigung und Polierung auf Hochglanz gebracht wird. AD HOC Greenheater ist Innovation und Nachhaltigkeit im wichtigsten italienischen Segment: Atmosphäre, Stil und Funktion vereinigen sich mit dem Überdenken und Schaffen von innovativen Produktionsverfahren und neuen Produkten. Die Produktion nachhaltiger Produkte bedeutet nachhaltigen Umweltschutz:
durch Verwendung von recycelten und recyclingfähigen Werkstoffen
durch Reduzierung der Energiekosten in Produktion und Entsorgung
durch Beseitigung umweltbelastender Verfahren und Bearbeitungen
durch die Wahl nüchterner Formen und höherer Heizleistungen
durch die Verbesserung der Arbeitsbedingungen der Installateure mit Hilfe leichter Materialien.

Greenheater el principio de responsabilidad sostenible en este proyecto, AD HOC lanza nuevas posiciones y procesos que promuevan la prevenciyn de la naturaleza, la mejora del ciclo de vida del producto y la creaciyn de un nuevo acabado chapado que no utiliza cromo, con sustancias fбciles de eliminar, y que utiliza un proceso especial de limpiea del aluminio extruido. AD HOC greenheater, promueve la innovaciyn y la sostenibilidad como prinicpal estilo de vida italiano, para crear nuevas tecnologнas y nuevos productos. objetivos para preservar un medio sostenible y ayudar a la naturaleza:
- el uso de materiales reciclados y reciclables
- reducir los costos de energнa en la producciyn y la eliminaciyn
- la eliminaciyn de los procesos contaminantes y tratamientos
- la elecciyn de la sobriedad y el rendimiento calyrico mбs formal
- mejorar el trabajo de los instaladores con los materiales mбs ligeros.

AD HOC запускает новые позиции проектирования и процессы производства, которые плагоприятствуют природе, оценивая жизненный цикл продукции и создавая новую отделку металлизации, при который не использует хром, вещество которое сложно утилизировать, но которое используется при некоторых специальных процессах при обработке, очистке и создании блеска прессованного алюминия. AD HOC Greenheater, инновация и экологическая устойчивость в ключевом итальянском сигменте: атмосфера, стиль и функциональность сочетаются переосмысливая и внедряя производственные процессы, создавая новые технологии и новые продукты.
Производить экологически чистые предметы - означает защищать природу:
- использование переработанных и перерабатываемых материалов
- Снижение энергетических затрат при производстве и утилизации
- отмена загрязняющих процессов
- выбор умеренной и более высокой теплоотдачи
- улучшение работы монтажников, используя более легкие материалы.

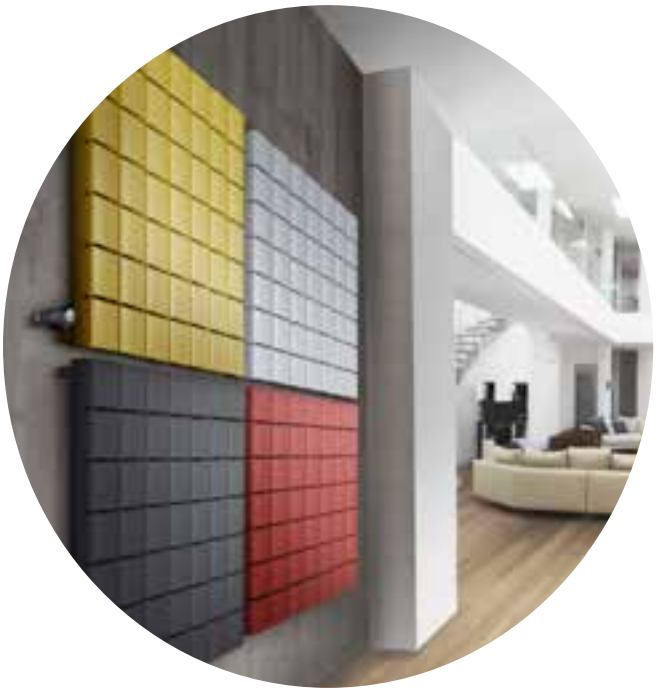
NO CROMO



Distinguersi per eccellere. AD HOC è il risultato di un pensiero creativo che concede nuova linfa alla fantasia, dando spazio al simbolo, senza mai tralasciare la qualità. Nella sua insaziabile ricerca della perfezione e cura del dettaglio, riflette originalità e design, funzionalità e stravaganze, in continua metamorfosi. Coniugando comfort e minimalismo, tecnologie e tendenze innovative, mette in scena pezzi unici che abitano lo spazio con raffinata spavalderia. Un sottile gioco di infinite variabili e sperimentazioni, capace di ribaltare estrosamente le nostre aspettative, per sorprenderci ogni volta di più.

Distinguish itself to excel. AD HOC it is the result of a creative thought that grants new lymph to fantasy, giving space to the symbol, without never to omit the quality. In its insatiable search of the perfection and it cures of the detail, reflects originality and design, functionality and extravagances, in continuous metamorphosis. Conjugating comfort and minimalism, innovative technologies and tendencies, it puts in scene only pieces that inhabit the refined space with baldness. A thin experimentation and game infinite variable, able of fanciful reverse our expectations, in order to surprise every time more to us.

Se distinguer dans l'excellence. AD HOC est le résultat de la pensée créatrice qui donne une nouvelle vie à l'imagination, de l'espace au symbole, sans jamais négliger la qualité. Dans sa quête insatiable de perfection et le souci du détail qui reflètent l'originalité du désign, la fonctionnalité et l'extravagance sont en constante métamorphose. Alliant confort et minimalisme, la technologie et les dernières innovations, l'amélioration des espaces de vie sont d'une grande fierté pour AD HOC.

Sich abgrenzen, um sich selbst zu übertreffen. AD HOC ist das Ergebnis kreativer Gedanken, die neue Lymphe in die Fantasie bringen und der Symbolität Platz einräumen, ohne je die Qualität zu vernachlässigen. In ihrer unersättlichen Suche nach Perfektion und ihrer Erhärtung von Details, reflektiert Adhoc Originalität und Design, Funktionalität und Extravaganz, in beständiger Umwandlung. In der Verbindung von Komfort und Minimalismus, innovativer Technologien und Tendenzen, stellt Adhoc nur die Objekte in Szene, die die Verfeinerung mit der Schmucklosigkeit vereinen. Ein hauchdünnes Experiment und veränderliches Spiel, das unseren Erwartungen fantasiereich entgegentritt, um uns immer wieder zu überraschen.

Destaca la excelencia del pensamiento creativo que le da una nueva vida a la imaginación, dando espacio al símbolo, sin descuidar la calidad. En su búsqueda insaciable de la perfección y la atención al detallen se reflejan la originalidad y el diseño, la funcionalidad y la extravagancia en constante metamorfosis. Combinando confort y el minimalismo, la tecnología y las últimas innovaciones. Un sutil juego de infinitas combinaciones y experimentos, capaz de derribar caprichosamente nuestras expectativas, para nuestra sorpresa.

Выстоять, чтобы преуспеть. AD HOC является результатом творческого мышления, которое дает новую жизнь фантазии, уступая место символам, не забывая при этом про качество. В своем ненасытном стремлении к совершенству и вниманию к деталям, отражаются оригинальность и дизайн, функциональность и экстравагантность. Сочетая в себе комфорт и минимализм, технологии и инновационные тенденции, создавая сцены из уникальных предметов, которые заполняют пространство со стильной развязанностью. Тонкая игра бесконечных переменных и экспериментов, способных причудливо перевернуть наши ожидания, удивляя с каждым разом все больше.

empire

Dalla grande tradizione inglese degli scaldasalviette, un'innovativa ispirazione per un radiatore essenziale ma innovativo. Da pavimento o da parete, EMPIRE conferisce importanza all'ambiente, senza appesantirlo, giocando, con ironia, tra passato e futuro.

From the great English tradition of heated towel rails comes the inspiration for an essential but innovative radiator. Mounted on the floor or on the wall, EMPIRE gives any setting a certain importance, without rendering it excessive, playing ironically between the past and the future.

De la grande tradition anglaise de serviette, l'inspiration pour un radiateur essentiel, mais innovante. Sol ou au mur, EMPIRE donne de l'importance, sans les alourdir, jouer, ironiquement, entre passé et futur.

Aus der großen englischen Tradition von Handtuchheiztrocknern stammt die Inspiration für einen essentiellen aber innovativen Heizkörper. Am Boden oder an der Wand montiert, gibt EMPIRE jeder Einrichtung Bedeutung, ohne sie zu beschweren, spielt ironisch mit Vergangenheit und Zukunft.

Partinedo de la gran tradición inglesa de los talleros, nace este radiador fresco para e innovador, pero esencial. De instalación a suelo o la pared, EPIRE le da importancia al ambiente, sin cargarlo, jugando con la ironia del pasado y futuro.

От великих английских традиций полотенцесушителя, инновационное вдохновение для значительного и инновационного радиатора. Для пола или для стены, EMPIRE придает значение обстановке, не утяжеляя ее, ироничиески играя между прошлым и будущим.

horizont

MADEADHOC.COM

Semplicità e linearità, ecco due caratteristiche che permettono a HORIZONT di entrare a pieno titolo nei radiatori di nuova generazione e di adattarsi a qualsiasi ambiente valorizzandolo al meglio. Un'idea di design creativo che, prendendo spunto dall'estrema sintesi dello stile moderno, esplora molteplici dimensioni e nuovi orizzonti espressivi.

Simplicity and linearity, here are two characteristics that allow HORIZONT to fully enter among new generation radiators and to fit any environment, valorising it to its best. A creative design idea that, taking cue from the extreme synthesis of modern style, explores multifarious dimensions and new expressive horizons.

Simplicité et sobriété, voici les deux fonctions qui permettent au HORIZONT de devenir un membre à part entière de la famille des radiateurs de nouvelle génération pour d'adapter à n'importe quel environnement afin de l'améliorer au maximum. Une vitalité créative inspirée par la synthèse extrême du style modern et des multiples dimensions de nouveaux horizons expressifs.

Einfachheit und geradlinigkeit sind zwei eigenschaften, die HORIZONT erlauben, ein vollständiges mitglied zwischen den heizkörpern der neuen generation zu werden. Eine kreative Design-Idee, durch die extreme Synthese des modernen Stils inspiriert, erforscht vielfältige Dimensionen und neue ausdrucksstarke Horizonte.

La simplicidad y la sencillez, las dos características que permiten a HORIZONT convertirse en miembro de pleno derecho de los radiadores de nueva generación y adaptarse a cualquier ambiente y mejorarlo al máximo. Idea de diseño creativo, inspirado en la síntesis extrema del estilo moderno, explora las múltiples dimensiones y nuevos horizontes expresivos.

простота и линейность, вот две особенности, которые позволяют HORIZONT полностью войти в радиаторы нового поколения и адаптироваться к любой среде, оценивая его в полном объеме. Это идея креативного дизайна, которая, принимая сигналы современного стиля, исследует многообразные аспекты и новые горизонты.

krom

Semplicità e linearità, ecco due caratteristiche che permettono a KROM di entrare a pieno titolo nei radiatori di nuova generazione e di adattarsi a qualsiasi ambiente valorizzandolo al meglio. Eccellente nelle prestazioni, garantisce un'elevata potenza e resistenza alla pressione a un costo contenuto e competitivo. Slanciato ed estremamente leggero, si presenta come seducente alternanza di vuoti e di pieni in armonico equilibrio, che scaldano ed arredano la casa. Un intelligente e calibrato mix di funzionalità e design, per una straordinaria efficienza di esercizio e un sostanziale risparmio energetico.

Simplicity and linearity, here are two characteristics that allow KROM to fully enter amaong new generation radiators and to fit any environment, valorising it to its best. Excellent in performances, it g uarantees a very high output and resistance to pressure, at a restrained and competitive. Slender and extremely light, it appears as seducing alternation of full and empty in harmonic balance, heating and fitting home.A clever and well-balanced mix of functionality and design, for an extraordinary exercise efficiency and a substantial energy saving.

Simplicité et sobriété, voici les deux fonctions qui permettent au KROM de devenir un membre à part entière de la famille des radiateurs de nouvelle génération pour d'adapter à n'importe quel environnement afin de l'améliorer au maximum. Excellente performance, grande puissance et haute résistance à la pression à un coût bas et très concurrentiel. Mince et léger, design épuré, efficacité d'exploitation extraordinire et économies d'énergie substantielles caractérisent ce seche-serviette.

Einfachheit und geradlinigkeit sind zwei eigenschaften, die KROM erlauben, ein vollständiges mitglied zwischen den heizkörpern der neuen generation zu werden. Er passt sich jeder umgebung an und erweitert sie zu ihrem besten. Hervorragend in der heizleistung garantiert er ein sehr gutes preis-leistungs-verhältnis. schlank und leicht, entsteht so eine verführerische balance von leere und fülle, die dem haus wärme liefert. Eine intelligente und ausgewogene mischung aus funktionalität und design für eine außergewöhnliche wirtschaftlichkeit und erhebliche energieeinsparungen.

La simplicidad y la sencillez, las dos características que permiten a KROM convertirse en miembro de pleno derecho de los radiadores de nueva generación y adaptarse a cualquier ambiente y mejorarlo al máximo. Excelente rendimiento, potencia y asegura una alta resistencia a la presión a un costo bajo y competitivo. Sutil y ligero, se presenta como una alternativa seductora a espacios vacío creando un equilibrio armónico que calientan y decoran la casa. Una combinación inteligente y equilibrada, funcional y de diseño con uan extraordinaria eficiencia operativa y de ahorro energético.

Простота и линейность, вот две характеристики, которые позволяют KROM полностью войти в радиаторы нового поколения и адаптироваться к любой среде оценивая его в полном объеме. Превосходная эффективность, гарантирует высокую мощность и устойчивость к давлению при низкой стоимости и конкурентоспособности. Утонченный и очень легкий, представляется в соблазнительном чередовании пустоты и заполненности, создавая гармоничное равновесие, обогревая и украшая дом. Смесь функциональности и дизайна для особой эффективности и значительной экономии энергии.

leo

Un'idea funzionale caratterizza il disegno di LEO. Non più solo scaldasalviette, ma elemento di appoggio di accappatoi, asciugamani ed altri materiali. Leo, nello sviluppo tecnico dell'idea dello Studio Nardi, ha raggiunto prestazioni ottimali. Leo è realizzabile anche su misura per il migliore inserimento negli spazi più diversi.

A functional idea characterises the LEO design. It is no longer only a heated towel rail, but a support element for bathrobes, towels and other materials. With its technical development of the Studio Nardi idea, Leo has attained excellent performance levels. Leo can also be made to measure to fit into the most varied spaces.

Une idée fonctionnelle caractérise le LEO. Cela n'est pas simplement un seche-serviette, mais un élement de support pour les peignoirs, serviettes. Le Studio Nardi a étudié la conception du Leo, il atteint des performances optimales. Il peut être poduit sur mesure afin de parfaitement s'insérer dans différents espaces.

Eine funktionale Idee charakterisiert das Design von LEO. Er ist nicht länger nur ein Handtuchheizkörper, sondern dient auch der Aufnahme von Bademänteln, Handtüchern und anderen Materialien. Durch die technische Weiterentwicklung des Studio Nardi erreicht der Leo eine exzellente Heizleistung. Leo kann auch auf Maß gefertigt werden, um die Eingliederung in verschiedenste Räumlichkeiten zu verbessern.

Una idea funcional es la imagen de LEO. No sólo es un toallero, sino un elemento para el apoyo de albornoces, toallas y otros materiales. Leo, es un diseño desarrollado por Studio Nardi, que alcanzó resultados óptimos. Leo se produce a medida para mejorar su inserción en diferentes espacios.

функциональная идея характеризует дизайн LEO. Теперь не только полотенцесушитель, но и полка для халатов, полотенец и других предметов. leo, в техническом развитии идеи studio nardi (Студией Нарди), достиг оптимальный рабочих характеристик. leo производится также по размерам заказчика, для удобства установки в различных помещениях.

Un guscio caldo, mai visto prima, unico nel suo genere. Il design dalle forme semplici nasconde una tecnologia raffinata, progettata per ospitare accappatoi e asciugamani per mantenerli sempre caldi e asciutti. Alluminio e acciaio inox lo rendono la soluzione ideale anche per gli ambienti più umidi.

A one-of-a-kind hot shell, never before seen. Simple shapes hide sophisticated technology, designed to store bathrobes and towels so they are always warm and dry. Aluminium and stainless steel make this the perfect solution, even for the dampest rooms.

Une coquille chaude, totalement innovante, unique en son genre. Derrière un design aux formes simples se cache une technologie sophistiquée, conçue pour garder au chaud et au sec peignoirs et serviettes. Aluminium et acier inoxydable en font la solution idéale même pour les pièces les plus humides.

Eine nie zuvor gesehene warme Hülle, einzigartig in ihrer Art. Hinter den schlichten Formen des Designs verbirgt sich eine raffinierte Technologie, entworfen als Bademantel - und Handtuchhalter, um diese stets trocken und warm zu halten. Aluminium und Edelstahl machen aus ihm eine ideale Lösung auch für sehr feuchte Räume.

Una cálida cubierta inédita, única de su clase. El diseño de formas sencillas encierra una tecnología refinada, estudiada para contener los albornoces y toallas manteniéndolos siempre secos y calientes. El aluminio y el acero inoxidable hacen que sea la solución ideal hasta para los ambientes más húmedos.

Горячая ракушка, никто такого раньше не видел, единственная в своем роде. Дизайн простых форм скрывает технологическую изысканность, разработан для размещения халатов и полотенец, чтобы держать их в тепле и сухости. Алюминий и нержавеющая сталь делают его идеальным решением даже в самых влажных местах.

upper

Approfondire le funzioni per rafforzarne l'efficacia. UPPER è un radiatore-scala. Permette una grande prestazione nella funzione di scaldasalviette. Concepito su grandi altezze e con la possibilità di aumentare le barre orizzontali, Upper soddisfa ogni esigenza di prestazione scaldante.

The development of functions to strengthen performance. UPPER is a ladder radiator. It has a high performance as a heated towel rail. It is meant for use in a high version and it is possible to increase the horizontal bars. Upper satisfies all heating performance requirements.

Le développement des fonctions pour améliorer son efficacité. UPPER est un "radiateur échelle" Conçu pour de grandes hauteurs et avec possiblité d'augmenter le nombre de barres. Le Upper est en seche-serviette qui se fabrique soit en acier.

Die Entwicklung von Funktionen, um die Effizienz zu steigern. UPPER ist eine Heizkörper-Leiter. Er hat eine hohe Leistung, wie ein Handtuchtrockner. Upper wurde entwickelt für die Höhe und es besteht die Möglichkeit, die Anzahl der horizontalen Rohre zu erhöhen. Upper erfüllt alle Anforderungen an einen Heizkörper.

Investigar las funciones para mejorar su eficacia. UPPER "una escalera radiador. Permite grandes prestaciones como toallero. Diseñado para una altura considerable y con la posibilidad de incrementar las barras horizontales, Upper, satisface todas las necesidades de calefacción.

Углубить функции чтобы повысить эффективность. UPPER это радиатора-лестница. обеспечивает лучшие характеристики в качестве полотенцесушителя. Предназначен для значительных высот и с возможностью увеличения горизонтальных полос, upper отвечает всем требованиям и характеристикам отопления.

RADIATORE IN ACCIAIO INOX DISPONIBILE NELLE FINITURE: INOX SATINATO E LUCIDO, COLORI RAL E NELLE DIMENSIONI 1500, 1800, 2100 MM DI ALTEZZA E 350, 500 MM LARGHEZZA.

INOX STEEL RADIATOR AVAILABLE WITH THE FOLLOWING FINISHES: SATIN AND POLISHED STAINLESS STEEL, RAL COLOURS AND IN THE FOLLOWING HEIGHTS: 1500, 1800, 2100 MM AND 350 OR 500 MM IN WIDTH.

ciussai

Lo spazio finisce dove finisce la fantasia. segnalato come "miglior apparecchio domestico del mondo" dalla illustre rivista di design inglese "wallpaper", CIUSSAI si presenta come spirale creativa dalle innumerevoli potenzialita. l'immaginazione irrompe nella razionalita sovvertendone gli schemi. nasce una nuova idea di radiatore in movimento: si allunga, si flette, si snoda, si contorce, si sposta a nostro piacimento, per personalizzare ogni ambiente secondo la nostra intuizione creativa. Il potere del trasformismo diventa cosм un divertente gioco dalle infinite variabili e combinazioni.

Space ends where fantasy ends. signalled as "best domestic appliance in the world" by prestigious english design "wallpaper", CIUSSAI introduces itself as creative spiral with uncountable possibilities. Imagination breaks into reason subverting schemes. a new idea of radiator in motion is born: it extends, it flexes, it winds, it twists, it moves as we like, to personalize any environment depending on our creative intuition. transforming power becomes so an enjoyable game with infinite variables and combinations.

L'espace se termine la ou la fantaisie prend fin. Primй comme "l'appareil domestque le mieux connu dans le monde" par le magazine "wallpaper", le CIUSSAI et sa spirale inventive est a lui seul un potentiel crйatif. Une nouvelle idйe de radiateur en mouvement est nйe: йtirement, flexion, torsion il se transforme comme vous le souhaitez pour personnaliser toutes les piиces, de votre intuition crйative. Le pouvoir de la transformation devient un jeu dans de multiples combinaisons.

Der raum endet dort, wo die fantasie endet. Von der berьhmten britischen design-zeitschrift "wallpaper" ausgewiesen als "das beste haushaltsgergt der welt" prgsentiert sich CIUSSAI wie eine kreative spirale mit unzghligen muglichkeiten. Die vorstellungskraft bricht in die rationale phantasie ein und untergrgbt ggngige formen. eine neue idee Eines heizkurpers in bewegung ist geboren: er streckt und beugt sich, dreht und wendet sich, verschiebt sich nach belieben und personalisiert jede umgebung entsprechend unserer schцpferischen intuition. Die kraft der transformation wird so ein freudiges spiel mit unendlich vielen variablen und kombinationen.

El espacio termina donde termina la fantasна. descrito como "el mejor aparato del hogar en el mundo" por la revista de diseco britбnico famoso wallpaper, CIUSSAI se presenta como una espiral creativa de su inumerable potencialidad. La imaginaciyn irrumpe en la racionalidad, invirtiendo los esquemas. nace una nueva idea de radiador en movimiento: se alarga, se contrae, se flexiona, girando y moviйndose a voluntad para personalizar cualquier habitaciyn. El poder de la transformaciyn se convierte en un divertido juego con infinitas variables y combinaciones.

Пространство заканчивается там, где заканчивается фантазия. Отмечено как "Лучший отечественный прибор в мире" известным британским дизайнерским журналом "Wallpaper", CIUSSAI выглядит как креативные спирали бесчисленного потенциала. воображение врывается в привычные схемы. Рождается новая идея радиатора в движении: растягивается, сгибается, тянется, поворачивается, движется по нашему желанию, чтобы сделать индивидуальным любое пространство в соответствии с нашей творческой интуицией. Мощность трансформации становится как приятная игра с бесконечным сочетанием комбинаций.

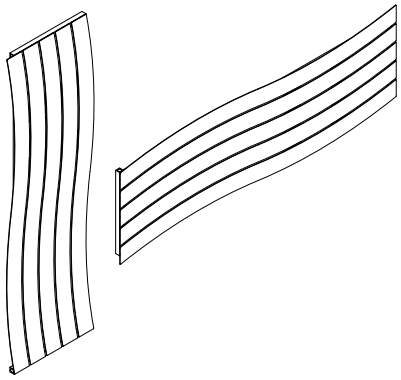
FORMAT S, оригинальный дизайн, отличное техническое исполнение. Это дает легкое движение волн привлекательным для радиатора, идеально подходит для любой настройки, классические и современные.



mirror

Design Fabio Berti

MADEADHOC.COM

mirror

Lo specchio crea illusioni, lo specchio riflette il mondo a due dimensioni costruendo un luogo surreale, immagine e rappresentazione non verità delle cose. La cornice racchiude questo immaginifico mondo e lo riscalda. Il MIRROR è infatti un radiatore di grande potenza, adatto per camere da letto o per ingressi / atri.

The mirror creates illusions, the mirror reflects the world in two dimensions, building a surreal place, images and representations that do not reflect the truth. The frame encloses this imaginary world and heats it. The MIRROR is in fact a very powerful radiator, suitable for use in bedrooms or entrance halls / atriums.

Le miroir crée des illusions, reflète le monde en deux dimensions en contruisant un monde surréaliste. Le cadre renferme ce monde imaginaire tout en diffusant de la chaleur. Cette stucture est en fait un radiateur très puissant, adapté pour les pièces à vivre: galerie d'entrée, chambre à coucher, salon.

Mirror schafft Illusionen. der spiegel reflektiert die welt in zwei dimensionen, indem er einen surrealen ort abbildet mit bildern und darstellungen, die nicht der wahrheit entsprechen. Der rahmen umschließt diese imaginäre welt und wärmt sie. Der MIRROR ist in der tat ein sehr leistungsfähiger heizkörper, der für den einsatz in schlafzimmern oder eingangshallen / atrien geeignet ist.

El espejo crea ilusión, el espejo refleja el mundo en dos dimensiones, la construcción de un lugar surrealista, imágenes y representaciones irreales de las cosas. La moldura enmarca este mágnifico mundo y lo calienta. El MIRROR es en realidad un radiador de gran potencia, adecuado para su uso en dormitorios o salas de entrada / atrios.

Зеркало создает иллюзии, зеркало отражает мир в двух измерениях, создавая мистическое место, образы и обманчивые представления вещей. Рамка охватывает этот воображаемый мир и нагревает его. Это MIRROR, на самом деле, очень мощный радиатор, который подходит для спальни или прихожей, а также других мест.

the wall

Potente nelle prestazioni, essenziale nel design, il radiatore THE WALL nasce da un innovativo concept strutturale: agisce infatti sulla dimensione della profondità. Aderisce sostanzialmente alla parete, formando un corpo unico con la stessa. TheWall è innovazione tecnologica e formale, elegante e minimale, per il minimo impatto ambientale. Questo corpo scaldante è disponibile in due altezze e larghezze, ma può anche essere realizzato su misura.

Powerful performance, essential design, the THE WALL radiator is the fruit of an innovative structural concept: in fact, it acts on the dimension of the depth. It adheres substantially to the wall, forming a single body with the same. TheWall is a synonym of technological innovation at is most formal, elegant and minimalist, with a minimum environmental impact. This heating element is available in two widths, but it may also be made to measure.

Puissance et performance, design sobre. THE WALL est le fruit d'un concept innovant de structure. Se confond avec la surface muralequi l'accueille. Ce radiateur peut se fabriquer sur mesure.

Kraftvolle Leistung, wesentliches Design - der HeizkörperTHE WALL ist die Frucht eines innovativen strukturellen Konzepts: Tatsächlich wirkt es auf die Dimension der Tiefe. Es hält sich grundsätzlich an der Wand und bildet mit dieser einen einzigen Körper. TheWall ist das Synonym für technologische Innovation, förmlich, elegant und minimalistisch, mit bester Umweltverträglichkeit. Dieser Heizkörper ist in zwei Höhen verfügbar, aber auch Sonderanfertigungen sind möglich.

Un potente rendimiento, diseño esencial, el radiador THE WALL esta fundado por un concepto estructural innovador: actúa sobre la dimensión de profundidad. Básicamente se adhiere a la pared, formando un solo cuerpo con el mismo. TheWall es la innovación tecnológica y formal, elegante y minimalista, de mínimo impacto ambiental. Este radiador está disponible en dos alturas y anchuras, pero también puede ser por encargo.

Высокая производительность, важное значение конструкции, радиатор THE WALL рождается от инновационной структурной концепции, действуя, на самом деле, на измерения глубины. Существенно придерживаясь стены, образуя с ней единое целое. The wall технологическое новаторство, элегантное и минималистское, с минимальным воздействием на окружение. Этот обогреватель доступен в двух вариантах высоты и ширины, но также может быть изготовлен на заказ.
