FMG FABBRICA MARMI E GRANITI

FMG FABBRICA MARMI E GRANITI® nasce nel 1998, sintesi perfetta di equilibrio tra passato e futuro. Riassume in sé la volontà del suo fondatore Dott. Romano Minozzi in base ad una strategia chiarissima, rimasta inalterata nel tempo: produrre in fabbrica, nel pieno rispetto dell'ambiente, marmi, graniti ed altre pietre di qualità superiore. Un obiettivo che si identifica con la filosofia industriale di FMG, dove la perfezione tecnica si coniuga con la bellezza e la tecnologia esalta la qualità dei materiali. Queste caratteristiche sono messe a disposizione di tutti i professionisti per soddisfare anche le esigenze più sofisticate ed innovative.

FMG FABBRICA MARMI E GRANITI was founded in 1998, and strikes the perfect balance between past and future. Embodies the objective of its founder, Mr. Romano Minozzi, to pursue a clear strategy, unchanged over time: to produce marble, granite and other high quality stones in the factory, fully respecting the environment. This aim perfectly fits into FMG's industrial philosophy, which involves technical perfection combined with beauty, and the quality of materials enhanced by technology. These characteristics are at disposal of all sector professionals, to satisfy even the most innovative, sophisticated demands.

FMG FABBRICA MARMI E GRANITI créée en 1998, FMG réunit dans un équilibre parfait le passé et le futur. Elle incarne la volonté de son fondateur, Monsieur Romano Minozzi, qui est basée sur une stratégie très claire et immuable au fil du temps : produire en usine, dans le plein respect de l'environnement, des marbres, des granits et d'autres pierres de qualité supérieure. Cet objectif reflète la philosophie industrielle de FMG, où perfection technique rime avec beauté, où la technologie magnifie la qualité des matériaux. Ces caractéristiques sont mises à disposition de tous les professionnels du secteur pour satisfaire aux exigences les plus innovantes et les plus sophistiquées.

FMG FABBRICA MARMI E GRANITI entstand 1998 und bildet die vollendete Synthese aus Vergangenheit und Zukunft. Das Unternehmen setzt die Absicht seines Gründers in einer klaren Strategie um, die im Verlauf der Jahre unverändert geblieben ist: die umweltfreundliche technische Produktion von Marmoren, Graniten und anderen hochwertigen Steinen. Dieses Ziel identifiziert sich mit der Produktionsphilosophie von FMG, die technische Perfektion mit Schönheit vereint und Technologie als Grundlage für Materialqualität voraussetzt. Damit können auch die anspruchsvollsten und innovationsreichsten Anforderungen von Planern und Architekten erfüllt werden.

C O S T R U T T O R I
D I P I E T R E N A T U R A L I

Natural stone builders.
Fabricants de pierres naturelles.
Hersteller von natursteinen.

Costruiamo in fabbrica prodotti avanzati, utilizzando processi costruttivi coperti da brevetti internazionali. **pietre** cioè combinazioni di argille, sabbie e minerali che la natura compatta con i movimenti tettonici e cuoce col calore degli strati superficiali della crosta terrestre. **naturali** perché utilizziamo gli stessi elementi impiegati in natura, seguendo processi costruttivi che ne riproducono logiche e caratteristiche: pressione e fuoco. **ecocompatibili** perché sabbie, argille e minerali vengono recuperati senza distruggere e senza compromettere l'ambiente di provenienza, secondo scelte consapevoli e comportamenti aziendali sensibili e rigorosi. **ad altissime prestazioni** perché le argille, le sabbie ed i materiali utilizzati sono purissimi; la pressione di compattazione è altissima (480 kg/cm²); il calore di cottura è molto più elevato di quello dei vulcani (1300 °C ed oltre contro 1100 °C).

We build in the factory state-of-the-art products, using construction processes covered by international patents. **stones** i.e. blends of clays, sands and minerals that nature compacts through tectonic motion and fires through the heat of the superficial layers of the crust. **natural** because we employ the same forces used by nature itself (pressure and fire), following construction processes which reproduce its features and characteristics. **ecocompatible** because sands, clays and other minerals are quarried without damaging the environment, using sensitive, strictly enforced procedures and know-hows. **with very high performance** because clays, sands and materials used are extremely pure; the compacting pressure is very high (480 kg/cm²); the firing heat is much higher than the one of a volcano (1300 °C and more, compared to 1100 °C).

Nous fabriquons dans nos usines des produits d'avant-garde, à l'aide de processus protégés par des brevets internationaux. **pierres** c'est à dire, des mélanges d'argiles, de sables et de minéraux que la nature compacte sous l'effet des mouvements tectoniques et cuit à la chaleur des couches superficielles de la croûte terrestre. **naturelles** parce que nous utilisons les mêmes ingrédients employés par la nature - la pression et le feu - et des procédés de production qui reproduisent l'expression et les caractères de la nature. **éco-compatibles** parce que les sables, les argiles et les autres minéraux sont extraits sans porter atteinte à l'environnement, en adoptant une méthode de sélection et un comportement sensible et rigoureux. **à hautes performances** parce que les argiles, les sables et les matériaux utilisés sont d'une extrême pureté. La force de pressage est très élevée (480 kg/cm²), et la chaleur de cuisson est beaucoup plus forte que celle des volcans (1300 °C et plus contre 1100 °C).

Wir fertigen Hightech-Fabrikerzeugnisse unter Verwendung von patentierten Herstellungsverfahren. **natürlich** denn wir verwenden die gleichen Elemente, die auch die Natur zum Einsatz bringt - Druck und Feuer - und die gleichen Herstellungsverfahren, die die ästhetischen und technischen Eigenschaften naturgetreu reproduzieren. **umweltfreundlich** denn die Sande, Tone und anderen Rohstoffe werden nach strengen umweltfreundlichen Kriterien und Methoden abgebaut, die der Nachhaltigkeit rigoros Rechnung tragen. **Steine** sprich Zusammensetzungen aus Tonen, Sanden und Mineralien, die von der Natur durch tektonische Bewegungen verdichtet und dank der Hitze des oberen Erdmantels gebrannt werden. **mit hohen Leistungsmerkmalen** denn die Tone, Sande und anderen Herstellungsmaterialien haben einen hohen Reinheitsgrad, der Verdichtungsdruck ist enorm (480 kg/cm²) und die Brennhitze ist wesentlich stärker als die Temperatur vom vulkanischen Magma (über 1300 °C im Vergleich zu 1100 °C).

Building according to nature.
Fabriquer d'après nature.
Naturebuilding bauen nach der natur.

Secondo natura. Costruiamo le nostre pietre nel totale rispetto dell'equilibrio fra uomo e natura, secondo scelte rigorose e comportamenti eco-sostenibili. Dalla natura ricaviamo gli elementi utili: argille, sabbie e fuoco e li ricomponiamo sapientemente, alla ricerca di una qualità superiore e non imitabile, nel pieno rispetto ambientale. Grazie ad una ricerca scientifica e tecnologica avanzata, FMG costruisce pietre naturali in un'ampia gamma di lastre dai formati, spessori, varietà cromatiche e finiture in grado di soddisfare qualsiasi esigenza progettuale. Inoltre, quale costruttore di pietre, FMG può realizzare qualsiasi pietra "nata" dalla fantasia di designer e progettisti.

According to nature. We build our stones without disturbing the balance between man and nature, according to strict eco-sustainable methods and procedures. We take the elements we need (clay, sand and fire) from nature and skilfully reassemble them to create an inimitable, higher quality, while respectfully protecting the environment. Thanks to leading scientific and technological research, FMG builds natural stones in a vast range of slabs, with different sizes, thicknesses, colours and finishes, which manage to meet the needs of every design project. Moreover FMG (as a "builder of stones") can produce any stone "born" of the imagination of designers and architects.

Selon la nature. Nous fabriquons nos pierres dans le respect total de l'harmonie entre l'homme et la nature, en sélectionnant les matériaux avec rigueur et en adoptant des comportements écodurables. La nature nous donne les ingrédients nécessaires : les argiles, les sables et le feu, et nous les assemblons adroitement pour aboutir à une qualité supérieure et sans égal, dans le respect total de l'environnement. FMG se base sur une recherche scientifique et technique de pointe pour reproduire des pierres naturelles sous forme d'un large éventail de dalles, dont les formats, les épaisseurs, la palette des nuances et les finitions sont en mesure de satisfaire toutes les exigences de projets. De plus, en tant que fabricant de pierres, FMG est à même de réaliser n'importe quelle pierre « née » de la fantaisie des designers et des projeteurs.

WieinderNatur. Wir stellen unsere Steine unter vollständiger Berücksichtigung des Gleichgewichts zwischen Mensch und Natur nach strengen Kriterien und nachhaltigen Verfahrensweisen her. Aus der Natur nehmen wir die notwendigen Elemente: Tone, Sande, Mineralien und Feuer. Diese Elemente setzen wir zu einem Erzeugnis von überlegener, unnachahmlicher Qualität und hoher Umweltfreundlichkeit zusammen. Die Produktion von FMG basiert auf den neuesten Ergebnissen der wissenschaftlichen und technologischen Forschung und Entwicklung. Es werden Natursteine in einer breiten Palette an Formaten, Stärken, Farbvarianten und Oberflächenbearbeitungen gefertigt, die allen Objekterfordernissen gerecht werden. Überdies kann FMG als Steinspezialist jeden beliebigen Stein fertigen, der aus der Phantasie von Designern und Planern hervorgeht.

L'IMPEGNO PER LA QUALITÀ E L'AMBIENTE

Commitment to quality and environment.
L'engagement pour la qualité et pour l'environnement.
Der einsatz für die qualität und für die umwelt.

ACTIVE™

CLEAN AIR & ANTIBACTERIAL CERAMIC

**L'UNICA CERAMICA AL MONDO PER PAVIMENTI E RIVESTIMENTI ANTINQUINANTE E BATTERICIDA

100
SQ.M ACTIVE

30 TREES

ANTIBACTERIAL EFFECTIVENESS

99,99%

SELF-CLEANING EFFECTIVENESS

HYDROPHILIC

LESS USE

ANTI-ODOUR EFFECTIVENESS

BENEFITS OF PHOTOCATALYSIS

NO BAD SMELLS

EFFICACIA ANTINQUINANTE

100 mq Active = 30 alberi

In 6 ore, 100m² di ceramica Active depurano l'aria dagli Nox come 30 alberi o arbusti con una quantità di foglie pari a 22m² (New Phytol 103 (1986) 199)

ANTI-POLLUTION EFFECTIVENESS

100 sq. m. Active = 30 trees

In 6 hours, 100m² of Active ceramic cleans as much NOx from the air as 30 trees or shrubs with a quantity of leaves amounting to 22m² (New Phytol 103 (1986) 199)

EFFICACITÉ ANTIPOLLUTION

100 m² Active = 30 arbres

En 6 heures, 100 m² de céramique Active purifient l'air en détruisant les Nox comme le feraient 30 arbres ou arbustes ayant une quantité de feuilles égale à 22 m² (New Phytol 103 (1986) 199)

UMWELTSCHUTZLEISTUNG

100 m² Active = 30 Bäume

In 6 Stunden reinigen 100 m² Keramik die Luft und entfernen genauso viel Nox wie 30 Bäume oder Büsche mit einem Laubwerk von 22 m² (New Phytol 103 (1986) 199)

EFFICACIA BATTERICIDA

Nella nostra vita veniamo quotidianamente a contatto con un certo numero di batteri. Active li elimina tutti!

ANTIBACTERIAL EFFECTIVENESS

In our everyday lives we constantly come into contact with a lot of bacteria. Active gets rid of them all!

EFFICACITÉ ANTIBACTÉRIENNE

Nous sommes chaque jour en contact avec un certain nombre de bactéries. Active les supprime toutes !

BAKTERIENTÖTENDE WIRKUNG

Jeden Tag kommen wir mit einer gewissen Anzahl von Bakterien in Kontakt. Mit Active werden sie alle abgeschafft!

EFFICACIA AUTOPULENTE

Idrofilia – minor uso

La rimozione dello sporco risulta considerevolmente agevolata, con conseguente riduzione della necessità di sostanze detergenti.

SELF-CLEANING EFFECTIVENESS

Hydrophilic – less use

Removing dirt ends up being a lot easier, with a consequent reduction in the need for detergents.

EFFICACITÉ AUTONETTOYAGE

Hydrophilie – usage réduit

La suppression de la saleté est considérablement facilitée, ce qui réduit du même coup le besoin de substances détergentes.

SELBSTREINIGENDE WIRKUNG

Hydrophil – geringer Einsatz

Der Schmutz kann einfach mit geringen Reinigungsmittelmengen entfernt werden.

EFFICACIA ANTIODORE

Benefici della fotocatalisi

NO CATTIVI ODORI

Miglioramento della qualità dell'aria grazie a una sensibile riduzione degli inquinanti tossici e degli odori derivanti dallo sporco.

ANTI-ODOUR EFFECTIVENESS

Benefits of photocatalysis

NO BAD SMELLS

Better quality air thanks to a considerable reduction in the toxic pollution and the odours produced by dirt.

EFFICACITÉ ANTI-ODEUR

Les bienfaits de la photocatalyse

PAS DE MAUVAISES ODEURS

Amélioration de la qualité de l'air grâce à une réduction sensible des polluants toxiques et des odeurs provenant de la saleté.

GERUCHBEKÄMPFUNG

Vorteile der Fotokatalyse

KEINE GERUCHBILDUNG

Verbesserung der Luftqualität dank einer starken Verringerung der giftigen Schadstoffe und der auf Schmutz zurückzuführenden Geruchbildung.

GERUCHBEKÄMPFUNG

AEROPORTI & STAZIONI

Elevate prestazioni tecniche e importanti requisiti di sicurezza sono alla base di ogni importante progetto. Le lastre di FMG hanno guadagnato la fiducia di architetti e progettisti, grazie alle loro innate qualità.

AIRPORTS & STATIONS

High technical performance and safety requirements are the basis of every major project. FMG slabs are greatly appreciated by architects and designers for their high innate qualities.

AÉROPORTS ET GARES

Tout projet important est basé sur de hautes performances techniques et d'importantes exigences de sécurité. Les dalles de FMG ont gagné la confiance des architectes et des réalisateurs de projets grâce à leurs qualités innées.

FLUGHÄFEN & BAHNHÖFE

Hohe technische Leistungen und wichtige Sicherheitsanforderungen liegen jedem bedeutendem Projekt zugrunde. Die Platten von FMG haben durch die ihnen innewohnenden Eigenschaften das Vertrauen von Architekten und Planern gewonnen.

CENTRI COMMERCIALI

I progettisti di negozi, boutique e centri commerciali possono offrire un valore aggiunto alle proprie realizzazioni grazie alle lastre FMG, capaci di coniugare qualità estetiche e funzionalità tecnica, fondamentali per aree di shopping sottoposte quotidianamente a un alto calpestio.

SHOPPING CENTRES

Designers of shops, boutiques and shopping centres can offer an added value to their creations thanks to FMG slabs, which combine aesthetic quality with technical performance: two key requirements for shopping areas subjected to heavy foot traffic every day.

CENTRES COMMERCIAUX

Les réalisateurs de magasins, de boutiques et de centres commerciaux peuvent offrir une valeur ajoutée à leurs réalisations grâce aux dalles FMG, capables d'associer qualités esthétiques et fonctionnalité technique, fondamentales pour des zones de shopping soumises chaque jour à un piétinement intense.

EINKAUFSZENTREN

Die Planer von Geschäften, Boutiquen und Einkaufszentren können für ihre Realisierungen mit den Platten von FMG einen Mehrwert bieten, da diese in der Lage sind, ästhetische und technische Eigenschaften zu verbinden, die für täglich einem hohen Besucherstrom ausgesetzten Shopping-Bereichen von grundlegender Bedeutung sind.

FIERE & EXPO

Ampia gamma cromatica, numerosi formati e finiture, resistenza della materia: nelle più rilevanti manifestazioni internazionali di settore ed extra, le lastre FMG si sono evidenziate per l'alta versatilità che le caratterizza. Importanti brand di tutto il mondo hanno scelto il loro alto valore estetico e tecnologico per garantire un plus valore alle loro realizzazioni architettoniche.

FAIRS & EXHIBITIONS

Wide range of colours, numerous formats and finishes and material resistance: at the most important international trade fairs, but not only, FMG slabs have distinguished themselves for their great versatility. Important international brands have chosen the high aesthetic and technological value of FMG slabs to guarantee an extra value to their architectural designs.

SALONS ET EXPOSITIONS

Une vaste gamme chromatique, de nombreux formats et finitions, la résistance de la matière : lors des principales manifestations internationales du secteur et autres, les dalles FMG se sont distinguées par la grande polyvalence qui les caractérise. D'importantes marques du monde entier ont choisi leur grande valeur esthétique et technologique pour garantir un atout de plus à leurs réalisations architecturales.

MESSEN & EXPO

Eine breite Farbpalette, zahlreiche Formate und Oberflächen, Haltbarkeit der Materie: bei den wichtigsten internationalen Veranstaltungen im Fachbereich und außerhalb wurden die Platten von FMG aufgrund ihrer großen Vielseitigkeit und ihren Eigenschaften hervorgehoben. Wichtige Marken aus der ganzen Welt haben sich für ihren hohen ästhetischen und technologischen Wert entschieden, um ihren architektonischen Realisierungen einen zusätzlichen Wert zu verleihen.

	Resistenza al gelo Frost resistance Résistance au gel Frostwiderstandsfähigkeit	ISO 10545.12	Non devono presentare rotture od alterazioni apprezzabili della superficie Must not produce noticeable alteration to surface Ne doivent pas présenter des ruptures ou altérations trop importantes de la surface Oberflächen dürfen keinen Bruch oder Schaden aufweisen		Non gelive Frost-proof Non gélives Frostsicher
	Resistenza ai prodotti chimici Chemical resistance Résistance aux produits chimiques Chemikalienfestigkeit	ISO 10545.13	UB Minimum		Conforme Compliant complying with the norm
	Resistenza alle macchie Stain resistance Résistance aux taches Fleckenbeständigkeit	ISO 10545.14	1 < X < 5		CLASSE 5 - CLASS 5 ** Macchie rimosse con acqua corrente calda (senza detergente) Stains removed by hot running water (without detergent) Taches enlevées à l'eau courante chaude (sans détergent) Fleckenentfernung mit fließendem warmen Wasser (ohne Reinigungsmittel)
	Resistenza dei colori alla luce Color resistance to light Résistance de la couleur à la lumière Lichtbeständigkeit	DIN 51094	Non devono presentare apprezzabili variazioni di colore Must not produce noticeable colour variation Ne doivent pas présenter des variations remarquables de la couleur Keine sichtbare Farbänderung ist erlaubt		Campioni inalterati in brillantezza e colore No change in brightness or colour of samples Echantillons inchangés en brillance et couleur Glanz und Farbe der Muster unverändert
	Coefficiente di attrito (scivolosità) Friction coefficient (slipperiness) Coefficient de friction (glissement) Reibungskoeffizient (Schlupfrigkeit)	DIN 51130	Metodo disponibile Test method available Méthode disponible Verfügbares verfahren		Varia secondo la finitura di superficie It can vary according to the surface finish Varie selon la finition de la surface Die Rutschfestigkeit wird durch die Beschaffenheit der Oberfläche bestimmt
	Coefficiente di attrito (scivolosità) Friction coefficient (slipperiness) Coefficient de friction (glissement) Reibungskoeffizient (Schlupfrigkeit)	BCRA REP CEC 6/81	Attrito soddisfacente Satisfactory friction Friction satisfaisante Befriedigende Reibung 0,40 < μ < 0,74		Conforme Compliant

N.B: I valori di resistenza allo scivolamento, coefficiente di attrito statico o dinamico, riportati sul catalogo sono da ritenersi puramente indicativi e non vincolanti. Ogni eventuale specifica necessità dovrà essere da noi confermata al momento dell'ordine e comunque sempre prima della posa.

NB: Slip resistance values, coefficient of static or dynamic friction, in the catalog are purely indicative and not binding. Any specific requirements must be confirmed by us at the time of ordering and in any case before installation.

N.B: Les valeurs de résistance au glissement, le coefficient de frottement statique ou dynamique, indiqués sur le catalogue doivent être considérés comme purement indicatifs et ne sauraient engager notre responsabilité. Toutes les éventuelles spécifications nécessaires devront faire l'objet d'une confirmation de notre part au moment de la commande et en tout état de cause avant la pose.

Anm.: Die Werte für die Rutschfestigkeit, also des statischen oder dynamischen Reibungskoeffizienten, die im Katalog aufgeführt sind, sind als unverbindliche Richtwerte anzusehen. Alle spezifischen Anforderungen müssen von uns bei der Bestellung und in jedem Fall vor der Verlegung immer bestätigt werden.

Tutti i formati sono nominali.

FMG Fabbrica Marmi e Graniti si riserva la facoltà di modificare in qualunque momento le informazioni e le caratteristiche illustrate in questo catalogo, che non sono comunque da ritenere legalmente vincolanti.

I colori e le caratteristiche estetiche dei prodotti sono quanto più possibile vicini a quelli reali, nei limiti consentiti dai processi di stampa.

All sizes are nominal.

FMG Fabbrica Marmi e Graniti reserves the right to modify the information and the characteristics illustrated in this catalogue (which are in any case not legally binding) at any moment.

The colours and appearance features of the products are as close as possible to reality, within the limitation of the printing process.

Tous les formats sont nominaux.

FMG Fabbrica Marmi e Graniti se réserve la faculté de modifier à tout moments les informations et les caractéristiques figurant dans le présent catalogue, lesquelles n'engagent pas par le fabricant au plan légal.

Les couleurs et les caractéristiques esthétiques sont fidèles aux couleurs et caractéristiques réelles dans les limites des procédés d'impression.

Alle Formate sind Nennwerte.

Die Firma FMG Fabbrica Marmi e Graniti behält sich vor, die in diesem Katalog enthaltenen Informationen und Eigenschaften jederzeit zu ändern; sie gelten auf keinen Fall als gesetzlich bindend.

Die Farben und ästhetischen Eigenschaften der Produkte kommen innerhalb der Möglichkeiten der Druckverfahren den tatsächlichen Eigenschaften so weit wie möglich nahe.

FMG Fabbrica Marmi e Graniti : tutti i diritti riservati.

Ogni riproduzione totale o parziale dei contenuti di questo catalogo, sia di testo sia di immagine, è vietata e sarà perseguita a termini di legge.

FMG Fabbrica Marmi e Graniti: all rights reserved.

Total or partial reproduction of text or illustrations of this catalogue is prohibited and is subject to legal sanctions.

FMG Fabbrica Marmi e Graniti: tous droits réservés.

Toute reproduction totale ou partielle du contenu - textes et images - du présent catalogue est interdite et constituerait une contrefaçon sanctionnée par la loi.

FMG Fabbrica Marmi e Graniti: alle Rechte vorbehalten.
