Collections made with digital technology.

In un periodo di forti e veloci cambiamenti Marmora, con i suoi otto colori, diversi formati, mosaici, colonnati e pezzi speciali, dimostra come il team di Idea Ceramica sia compatto, creativo ed efficiente in ogni suo reparto. Grazie infatti alla capacità delle presse di cambiare rapidamente le strutture, alle nuove tecnologie digitali, della smalteria, alla capacità del reparto scelta di mantenere alti gli standard qualitativi e alla creatività del nostro team di ricerca e marketing, siamo in grado di offrire puri esempi di ambienti raffinati con la perfezione dello stile italiano.

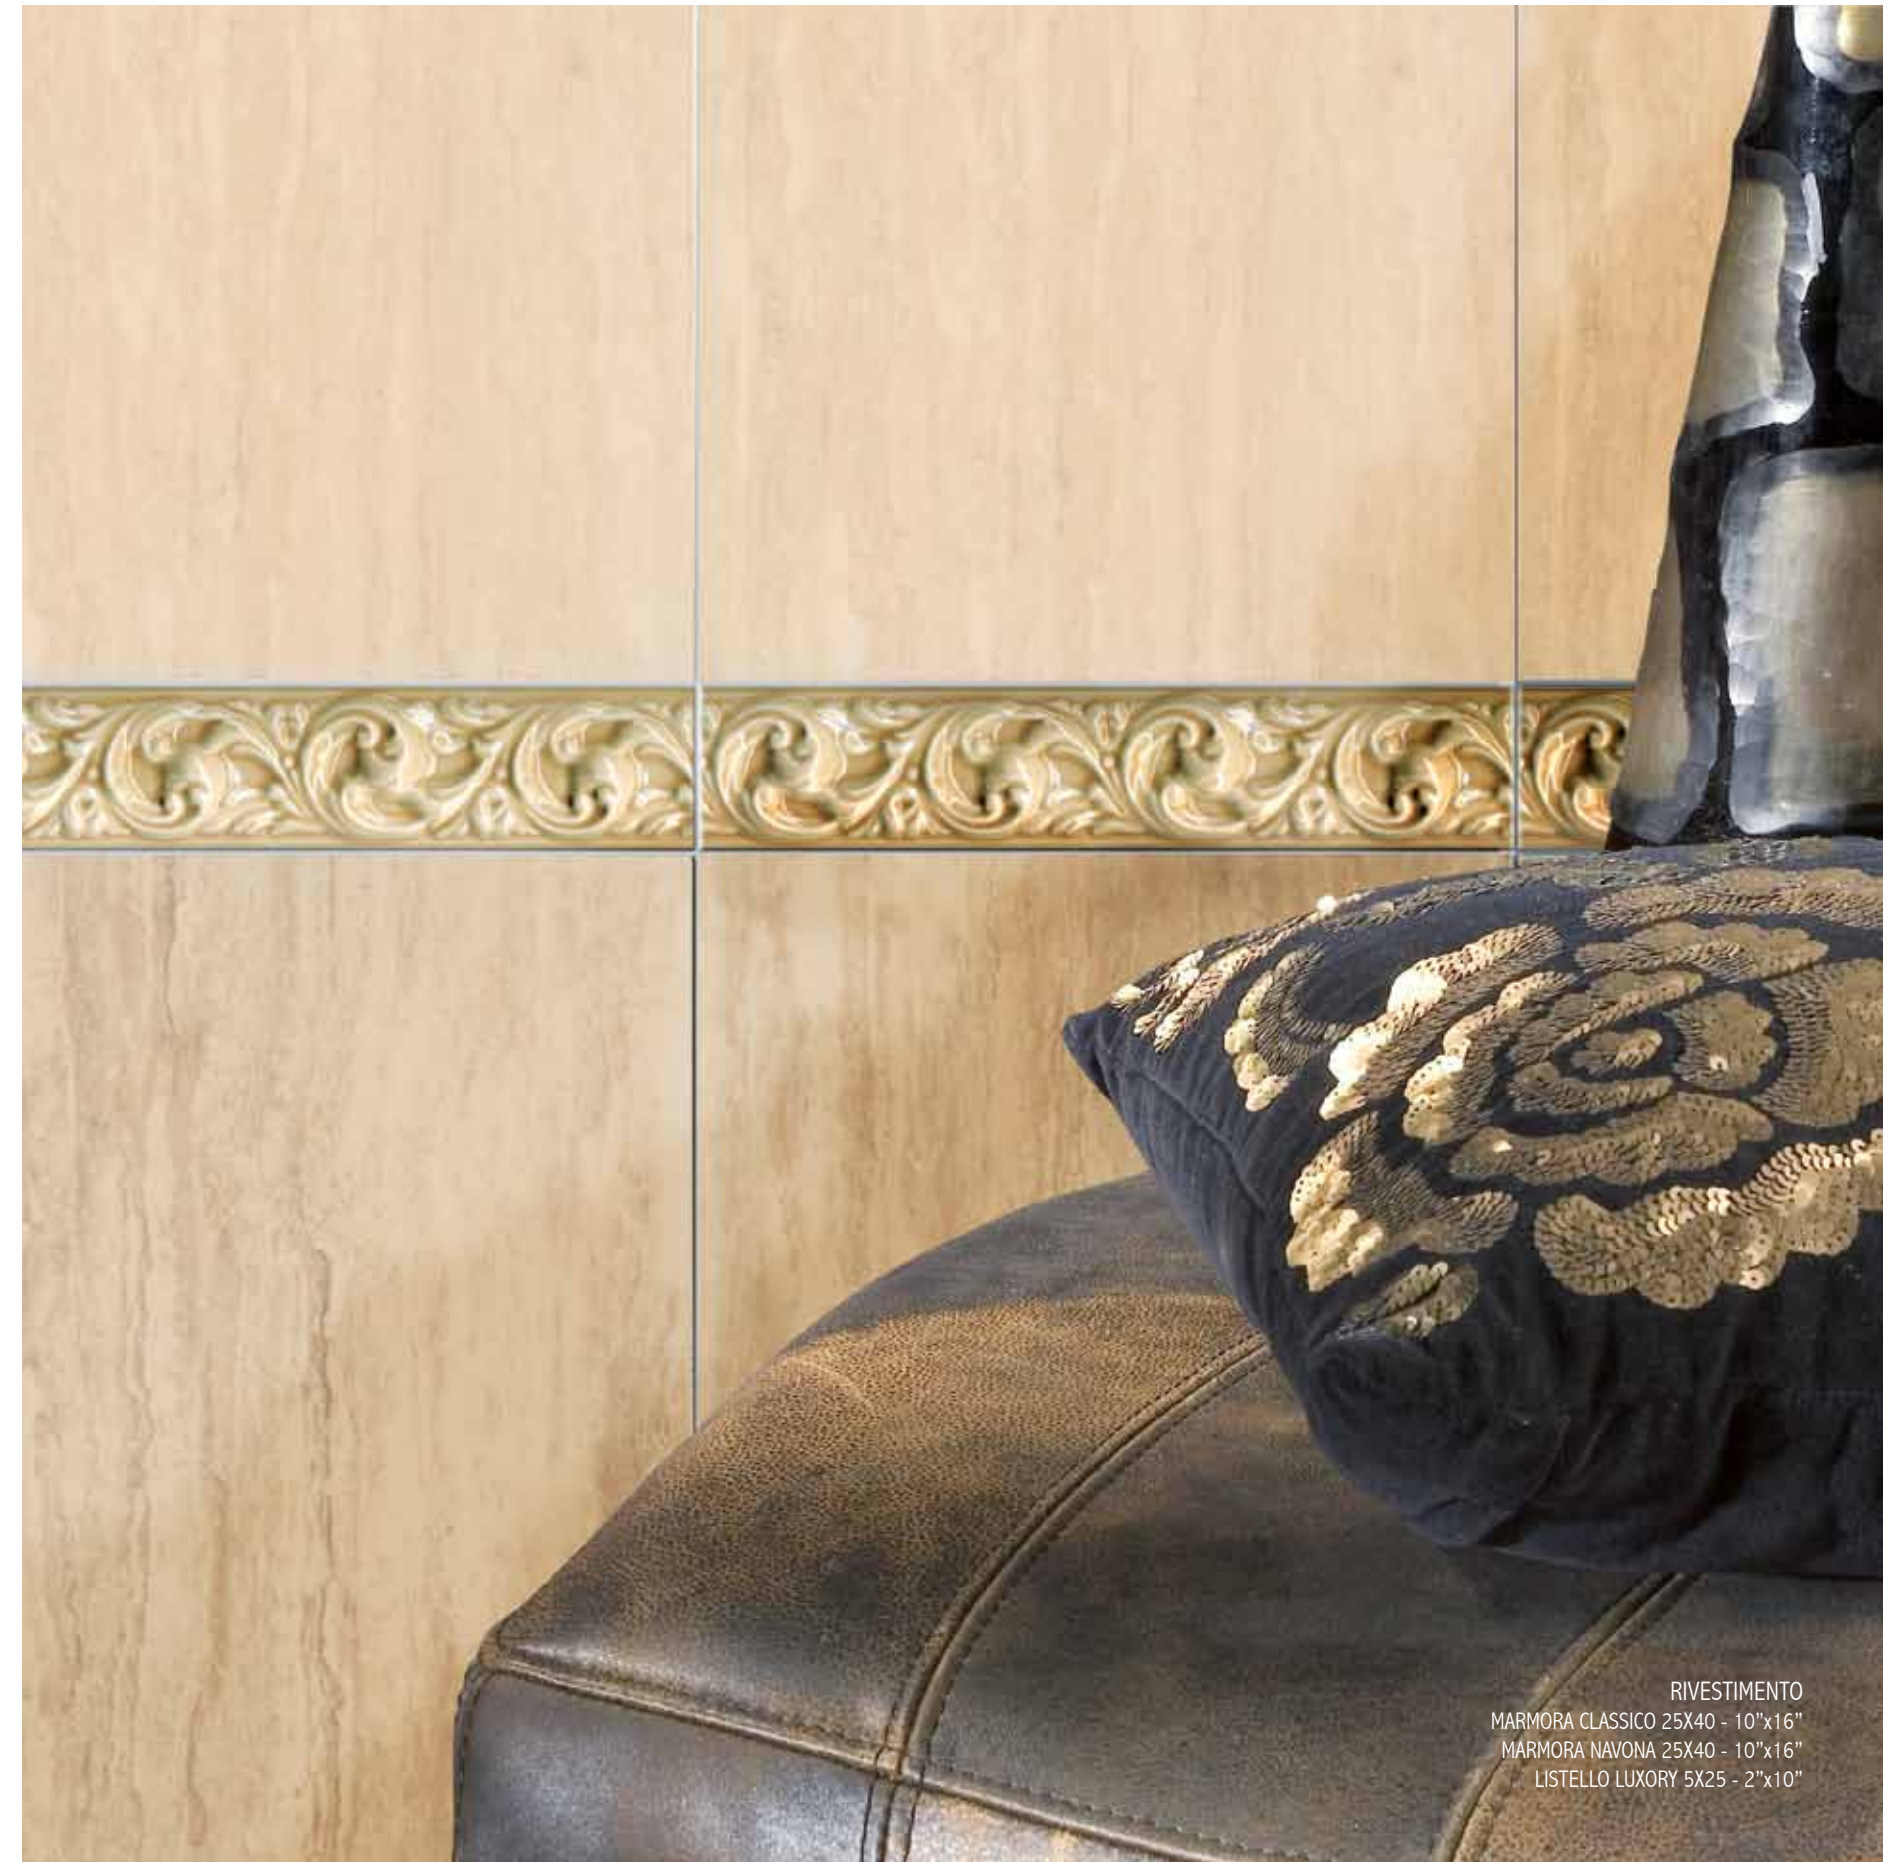

At a time of swift, major changes, Marmora with its eight colors, multiple sizes, columns, mosaics and trims, attests to how Idea Ceramica's team remains at the very edge of the creative process. Thanks to the advanced technology that allows for multiple surface structures, together with inkjet printing, while keeping our usual high quality standards, we are able to produce these examples of refined, elegant offerings in the spirit of the perfection of the Italian style.

Dans cette époque de grands changements, la série Marmora, avec ses huit couleurs, ses différents formats, les mosaïques, les colonnades et les pièces spéciales, est la preuve de la créativité et de l'efficacité du team Idea Ceramica. Chaque département de l'usine s'adapte parfaitement aux exigences de la production : les presses peuvent changer rapidement les structures, pour l'émaillage nous utilisons les plus modernes technologies numériques, le département du choix a la capacité de garder des très hauts standards de qualité et notre staff de recherche et de marketing sont toujours innovateurs et créatifs. Tout cela nous permet d'offrir à nos clients des produits raffinés et la perfection du style italien.
